Policy Statement:

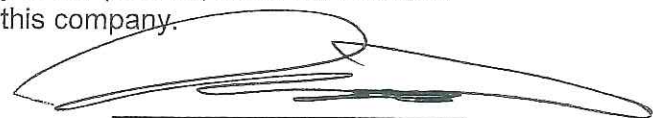

Aichi Forge, Inc. will contribute to society by providing attractive products, based on a dynamic, reliable corporate structure from a global viewpoint. We are always striving to improve our internal systems and/or process in an effort to make a quality product, meet the requirements of our customer, as well as our commitment to environmental preservation in all phases of our business.

1. We will develop and supply products and services that are useful to society by taking safety, quality and customer information into consideration and ensure that we provide a reliable product that satisfies our customers.
2. We will respect the diversity, personalities and individual characteristics of our employees and at the same time provide them with a safe, ergonomic and pleasant working environmental.
3. We strive to meet all our environmental legal and other requirements as well as be proactive in environmental **protection and/or** preservation activities.
4. We have implemented various programs to motivate our employees. Our professional, knowledgeable and experienced staff is critical to the success of our business.
5. We are "good corporate citizens" by lending our support and resources to various professional and/or charitable organizations.

Team Member Mission Statement:

"WE CARE"

- W Will strive to meet and/or exceed internal and/or external requirements. Specifically those related to our customer and/or regulatory and other requirements
- E External & internal policies as well as objectives and targets are documented and communicated to our team members, customers and suppliers.
- C Continuous improvement of our Environmental and/or Quality Management System is our goal.
- A All key processes of our business operation(s) have been identified to meet our customer and/or regulatory and other requirements
- R Review of our environmental and/or quality management system plus internal objectives and targets is conducted periodically to ensure conformance and compliance.
- E Each team member is responsible for the quality of our product, meet our customer needs and ensuring the success and growth of this company.

Naohide Goto, President
